Saving Paper and Printer Ink

Not being patronizing, but a self-proclaimed “non-techy” parent suggested I added this...

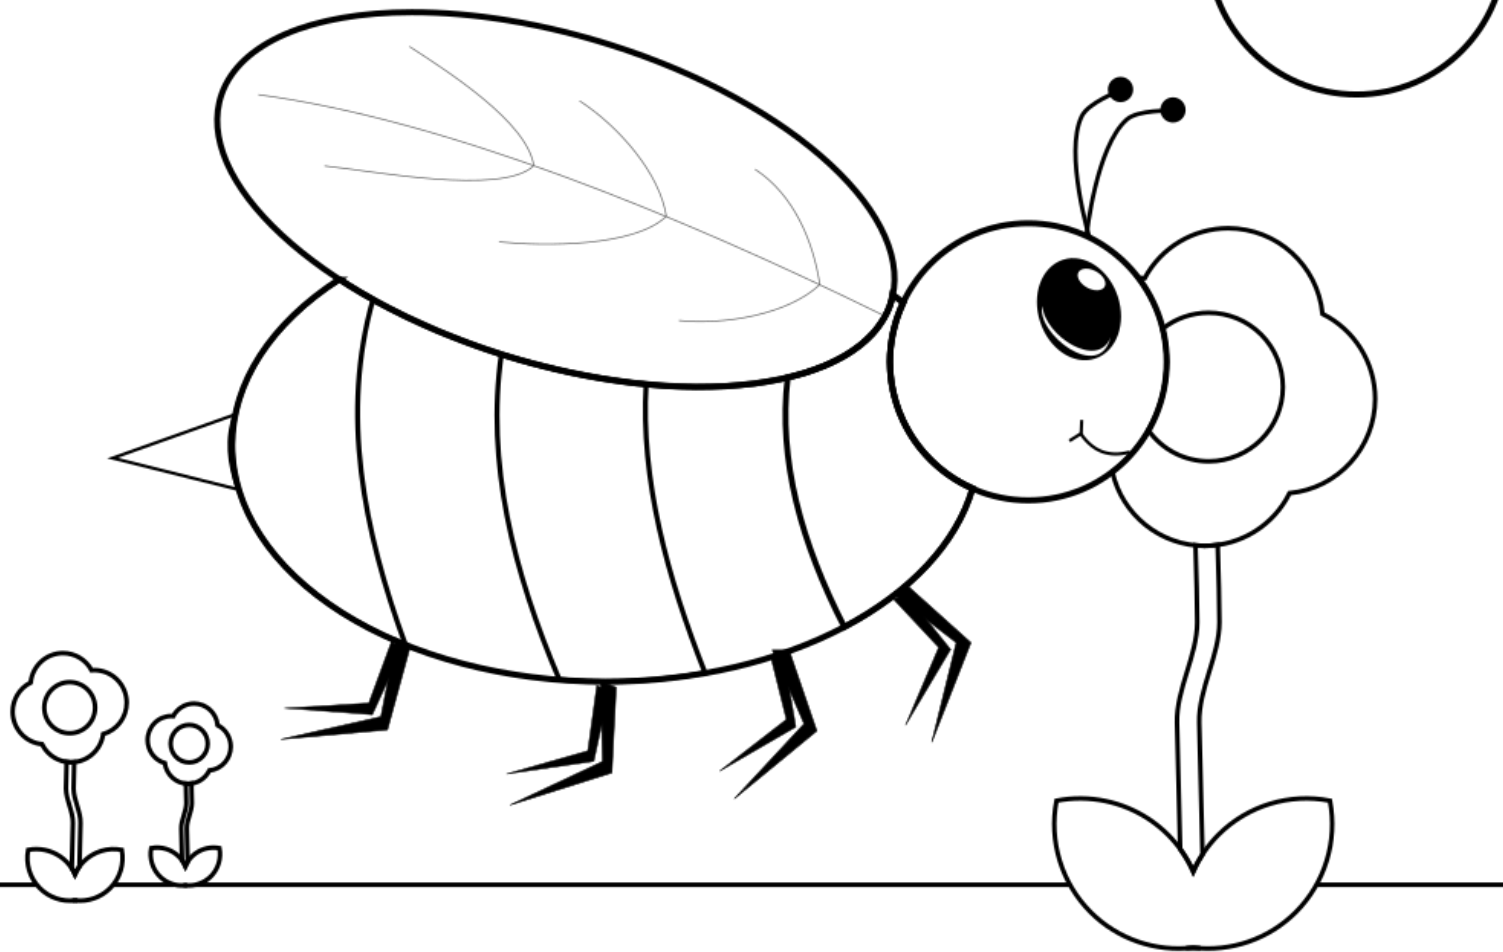

Chances are there are certain images that your children will favor over others. With that in mind, please remember that, when you go to print, your PDF software should allow you to specify which page(s) you want, rather than printing the whole book and wasting paper and printer ink. That's better for the environment and your bank balance!
